

5 kitchen styles to consider

We sure spend a lot of time in our kitchens. Whether we're cooking, entertaining, or dining, it's best done in the comfort of a kitchen design that best suits you. At Ultimate Homes & Renovations, we have a wide variety of kitchen styles from which to choose. Here are 5 styles to consider:

Contemporary

Our specialty! Contemporary is often referred to as modern style in home design. The sky is the limit when it comes to this always-changing style. We use straight lines, sharp edges, and flat surface panels as a design guideline. Often the cabinet and drawer fronts are flat-surfaced as opposed to a traditional shaker style. Drawer pulls, and cabinet handles are pure and simple, and often unornamented. Backsplashes can be glass, ceramic, porcelain, or stone.

Traditional

This timeless style uses a variety of coped mouldings and raised panel cabinets. Traditional kitchens are often sleek and conservative. You have a wide range of hardware varieties. Cabinets can be painted or stained wood. Backsplashes come in a wide selection from glass to tile. Get our designers to pick a matching set of colours that best suits your traditional kitchen!

Shaker

This is a classic!

The textbook style of cabinetry is complimented by its lowered panel appearance and solid, warm colouring. This gives a nice clean flow to your kitchen's aesthetic. Shaker style cabinets often use rounded metallic cabinet hardware, but we can hook you up with the type that matches your taste. Shaker cabinets can be painted or stained to your liking.

Cottage

This is arguably the coziest style out there. Bring the feeling of the lake house into your home. This style differs in a way which replaces upper cabinets with shelving to display your dinnerware. If you're not big on shelves, then consider transparent glass cabinet doors. The lower cabinet fronts are often raised panel or shaker style. Large windows are usually positioned above the sink to allow natural lighting to fill the room. Lighter colours compliment this style.

Old World

This exuberant style uses detailed coved mouldings, striking raised panel cabinet fronts, and rustic hardware. Old world gives of a warm feeling of character and history. Consider stone backsplash above your counter, and an arched valence above your stove. Brass rangehood, and ceiling light fixtures will also add to this unique style. Deep, dark colouring pattern of cabinets, flooring, and walls are fundamental to this kitchen style.
